**This is a MAG-óra or Seed Watch
on the wrist of a Sumerian MAGus.**

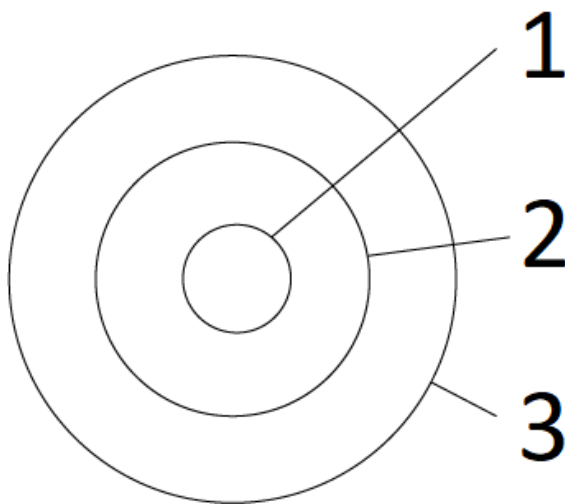

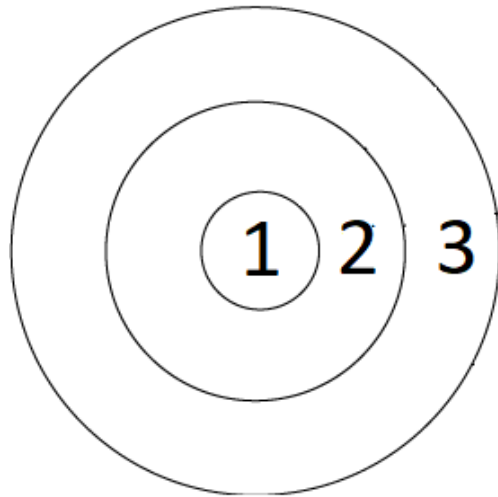

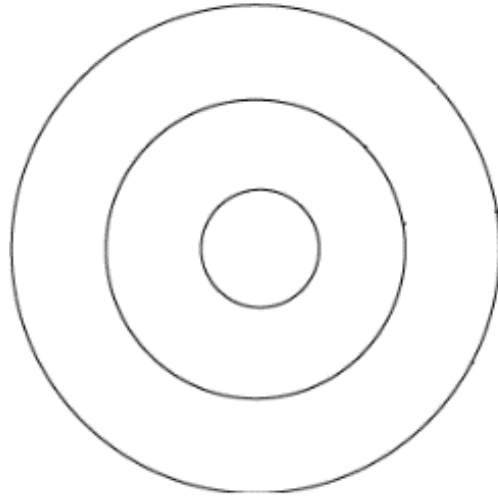

MAG = SEED in Magyar

**The Magyar language has the highest
percentage of ancient key words in the world.**

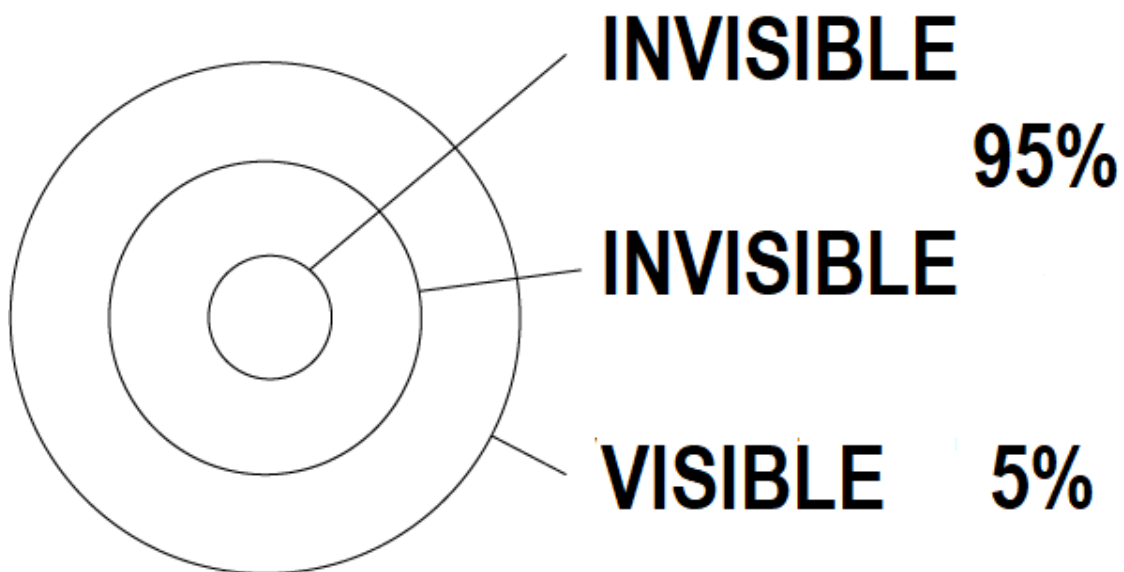

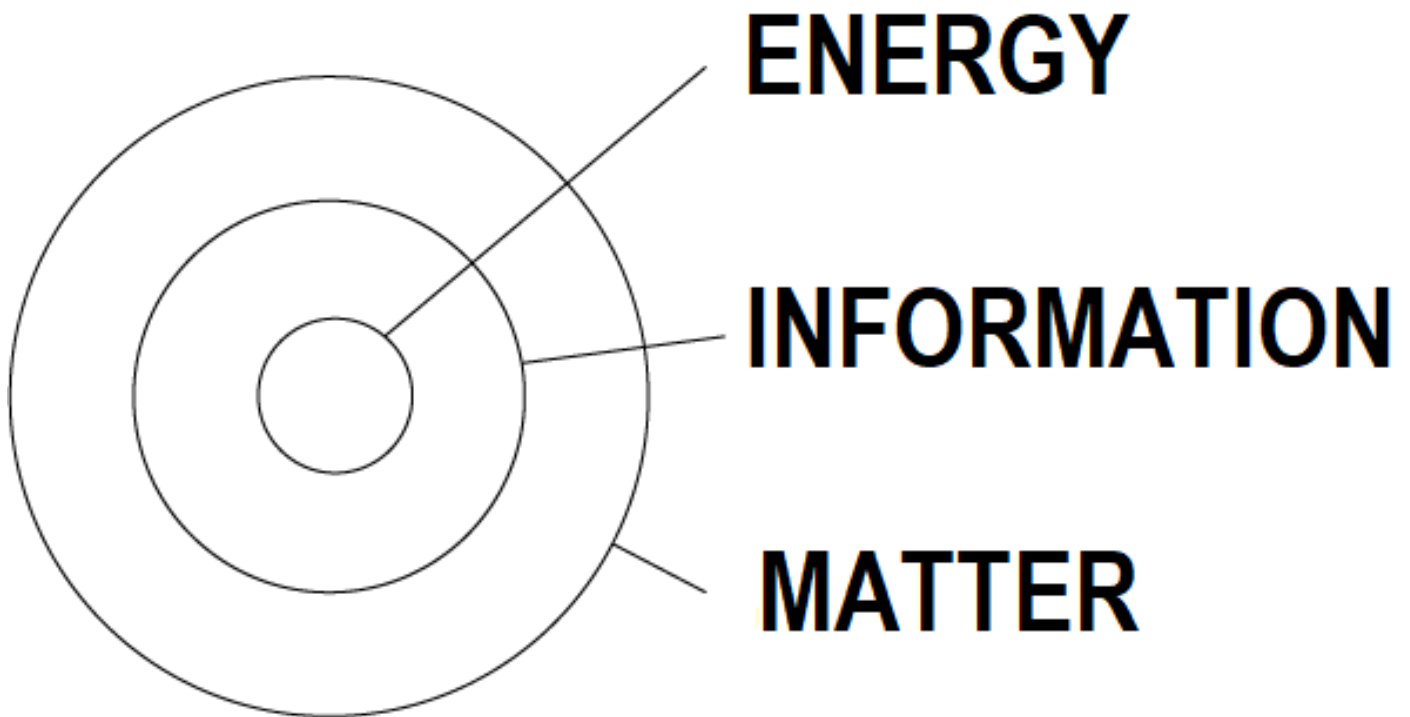

**The Magyars are the indigenous people of
Central Europe. These are facts.**

The universal seed model

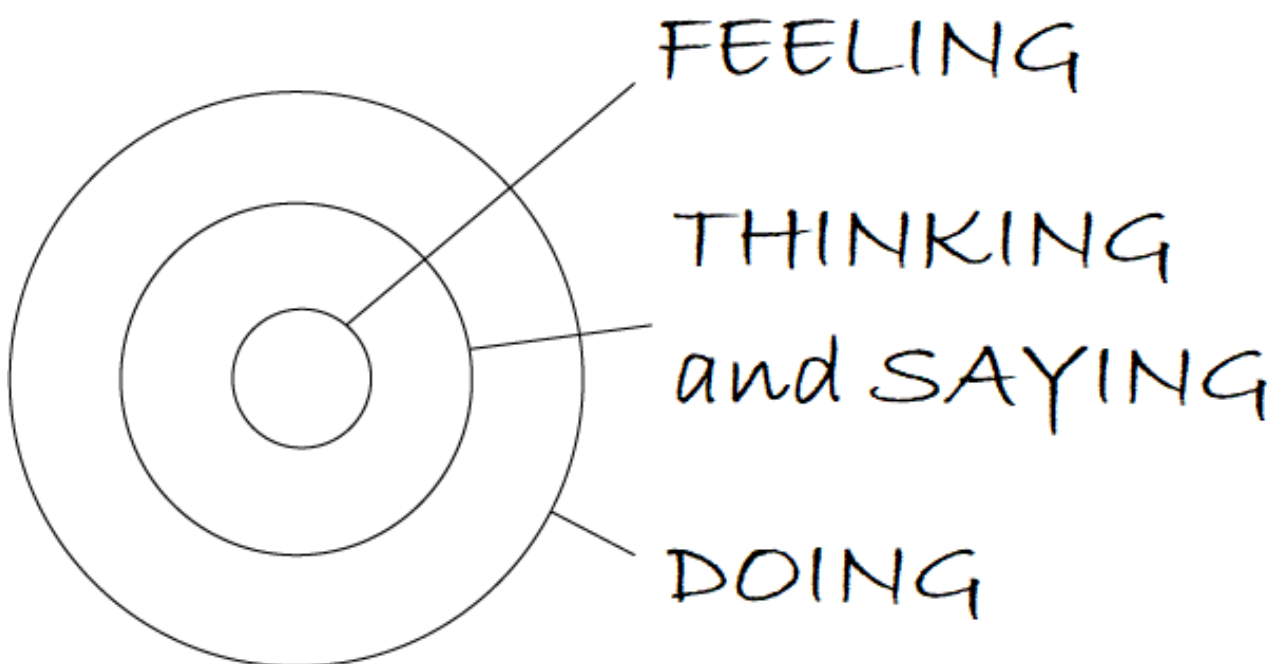

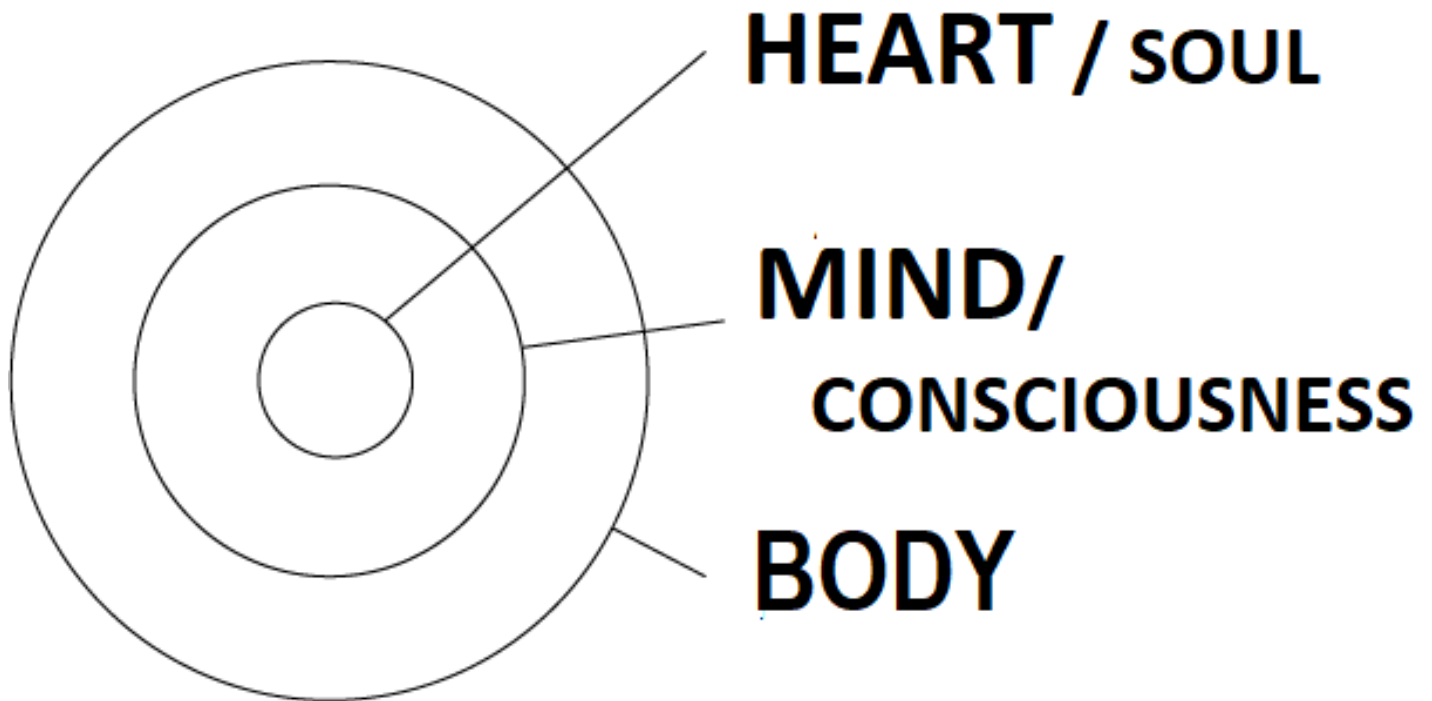

All the world's a seed

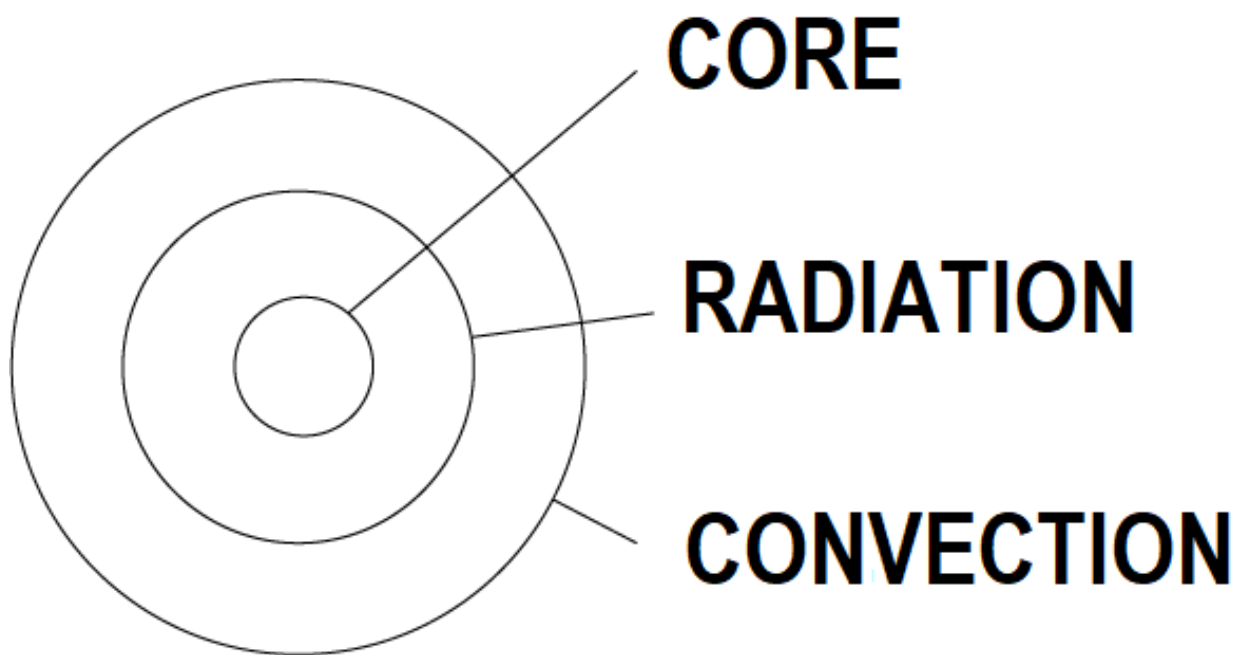

The MAGnetic Cosmos:

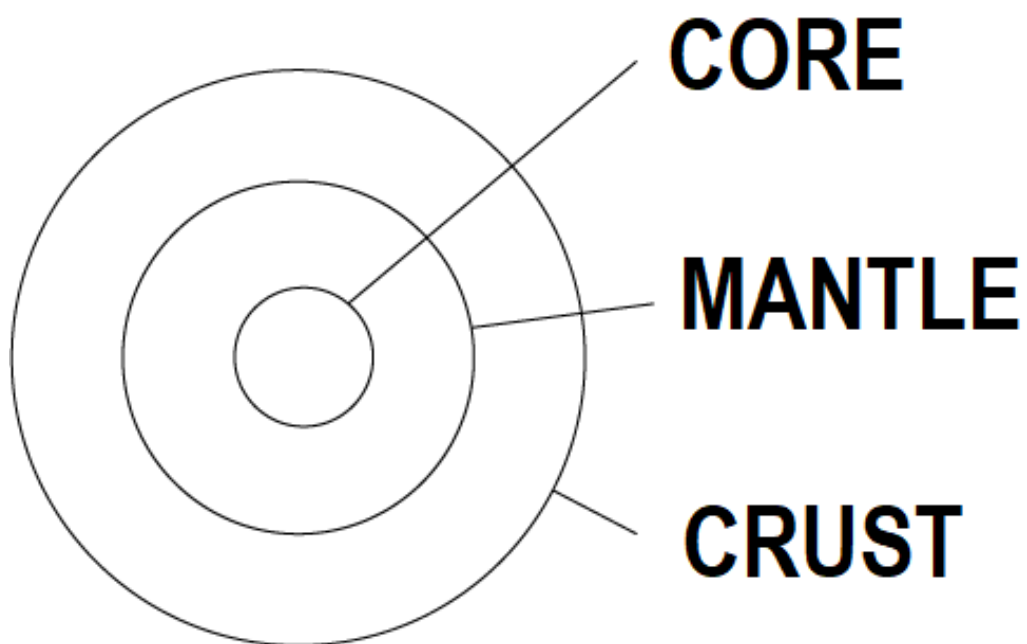

Humans and all living beings:

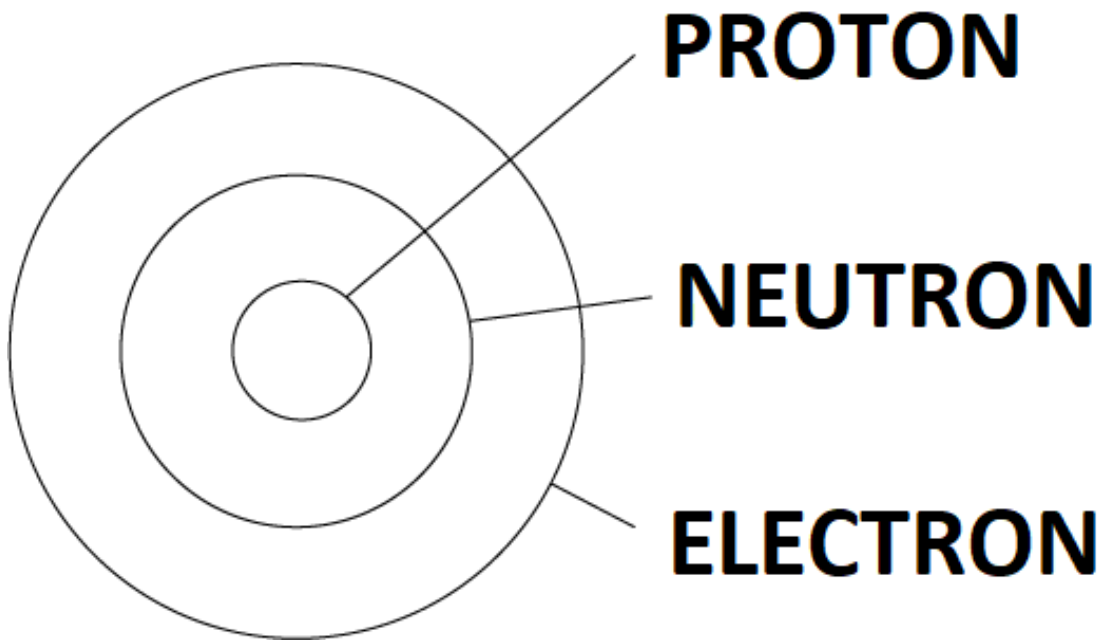

MAGnetic Sun:

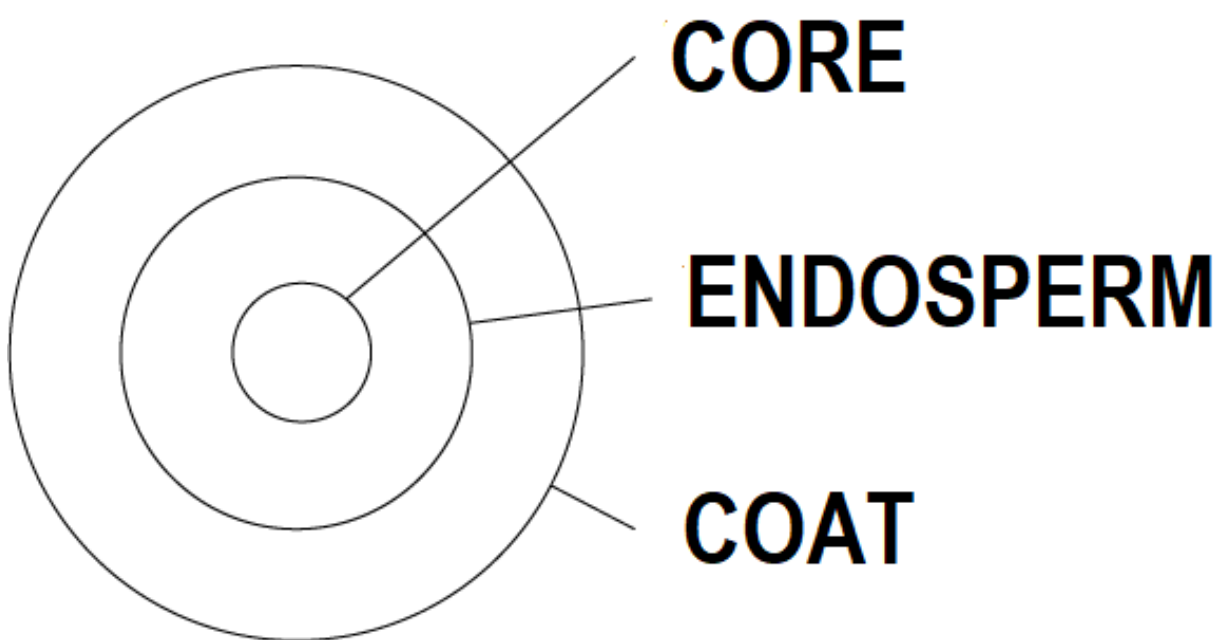

MAGnetic Earth:

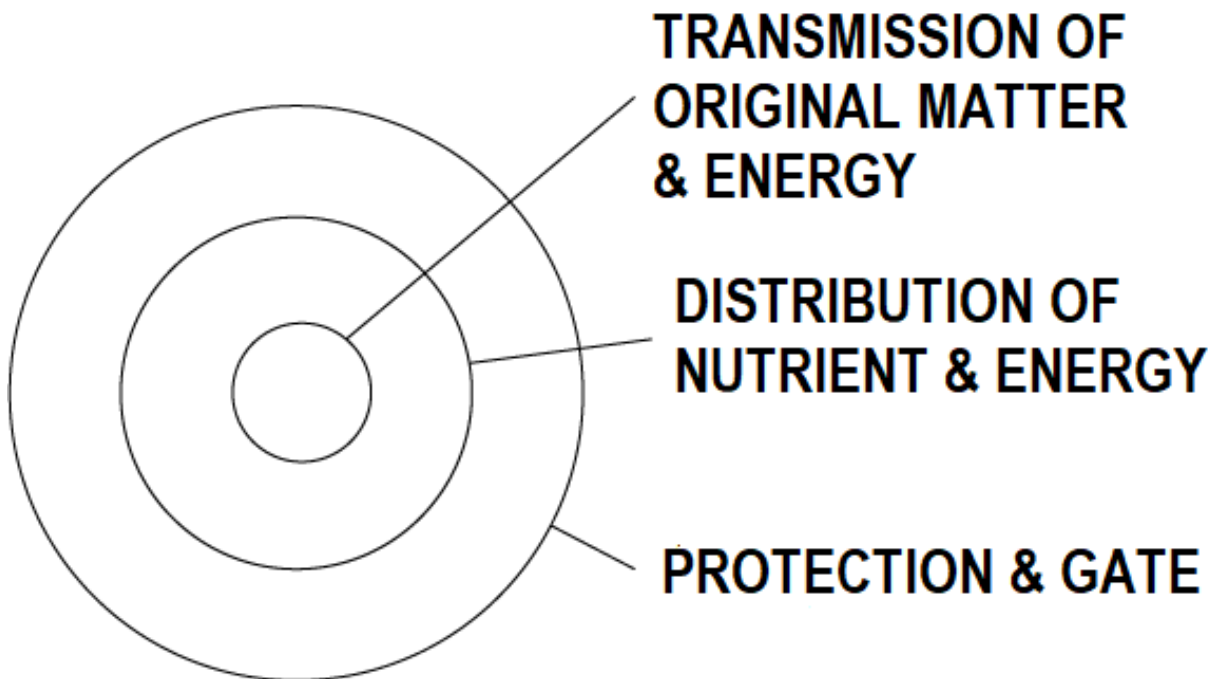

Atom:

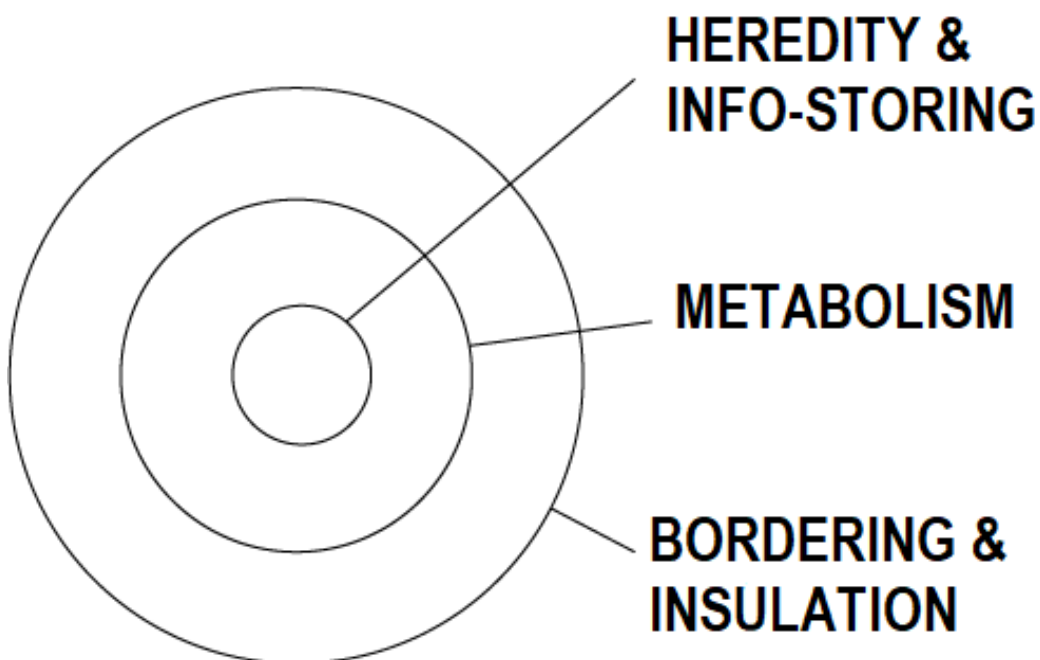

Plant seed:

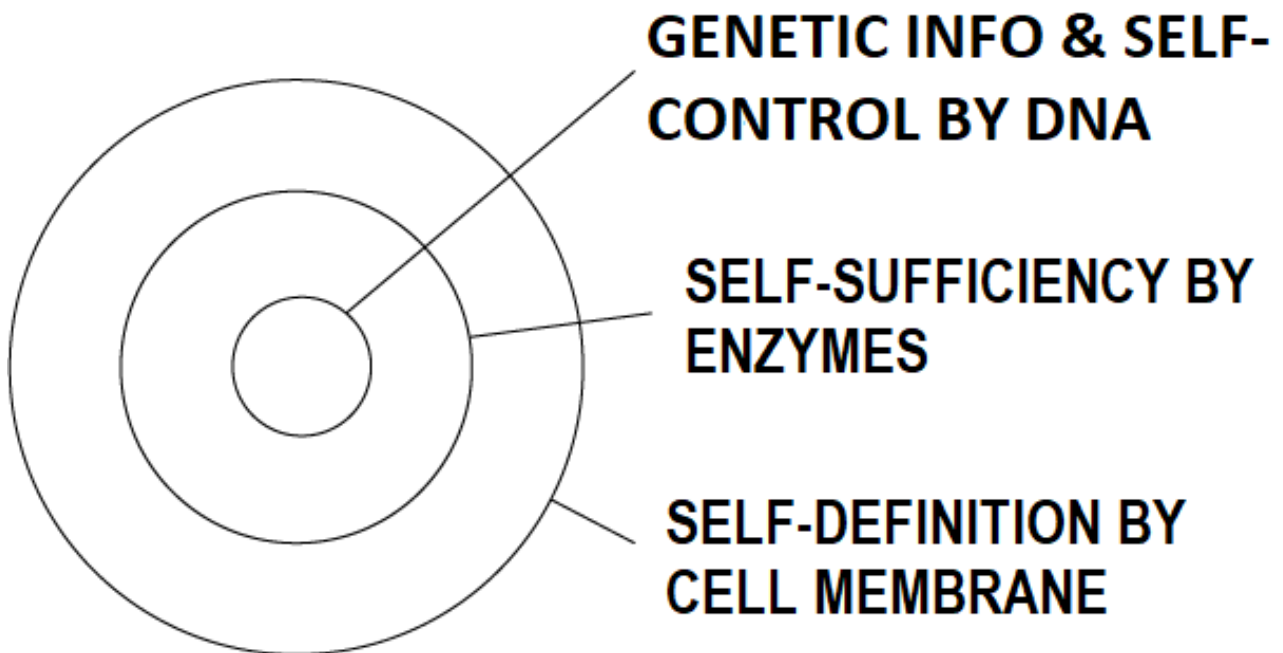

Functions in the plant seed:

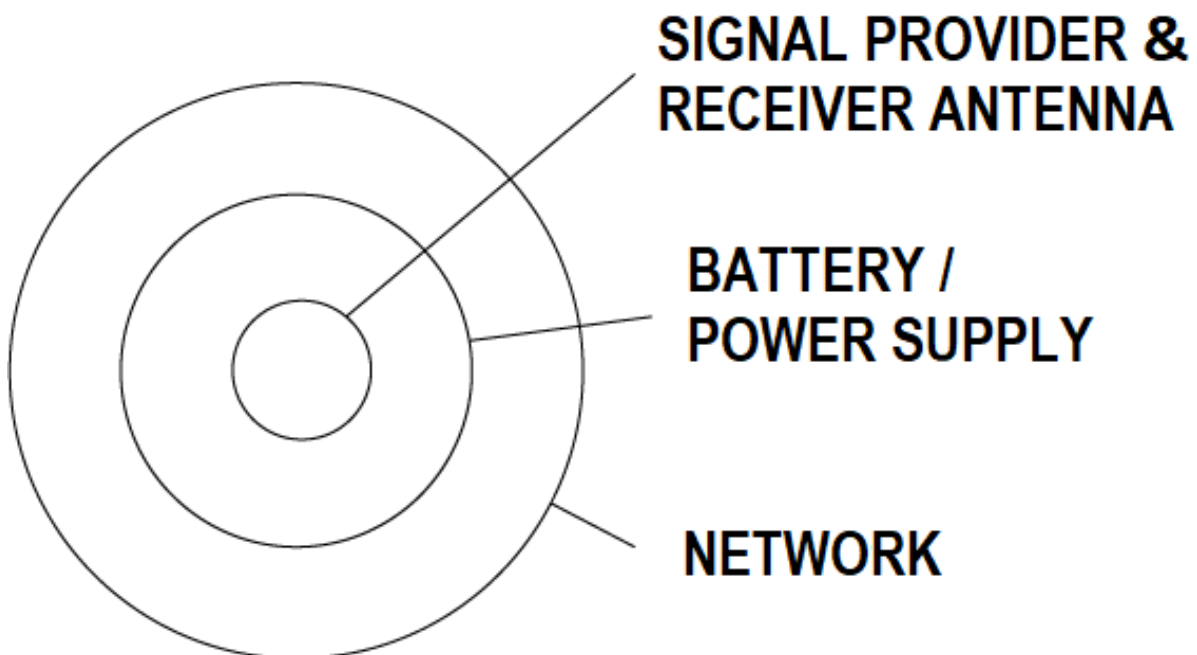

Functions in the living cell:

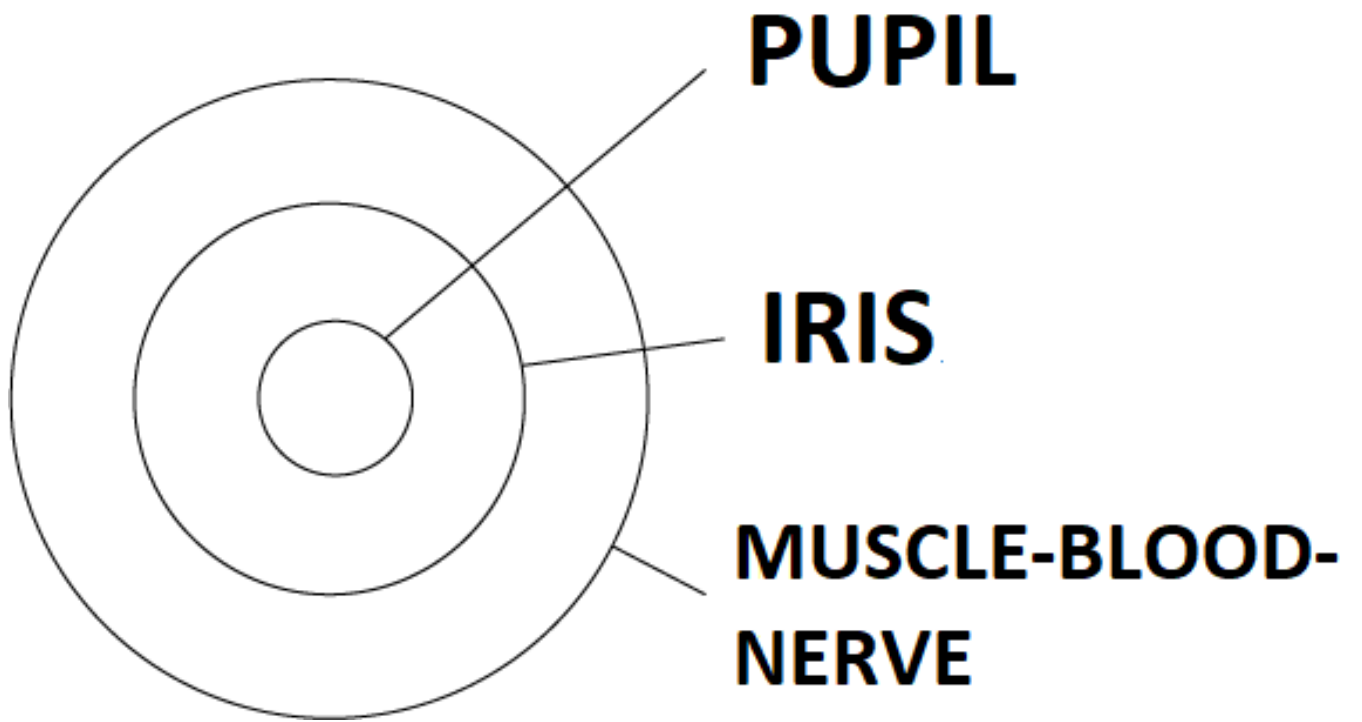

Conditions of biological life:

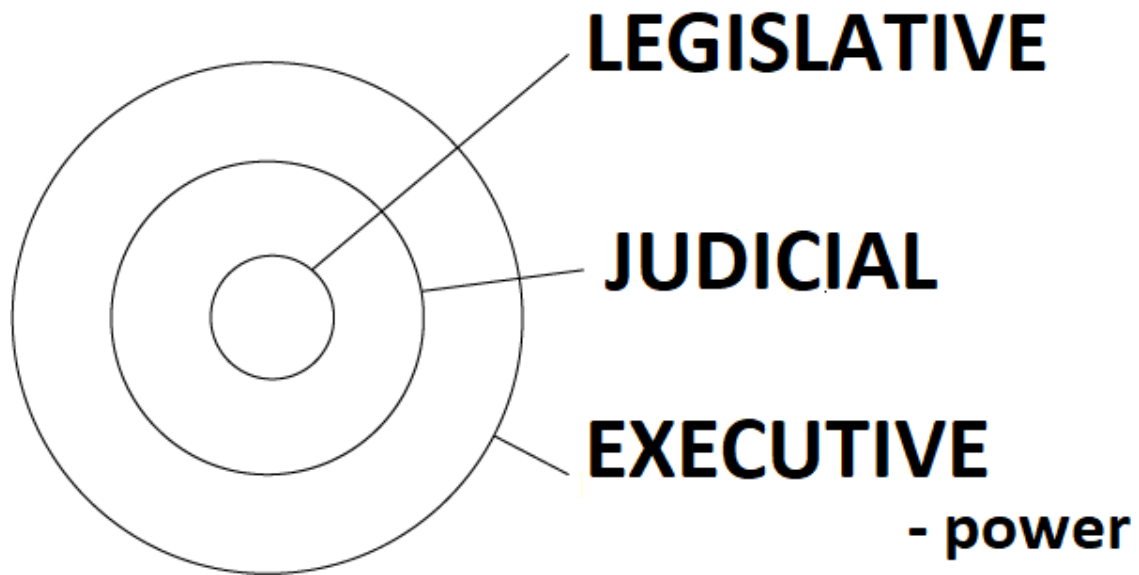

Crystal grid:

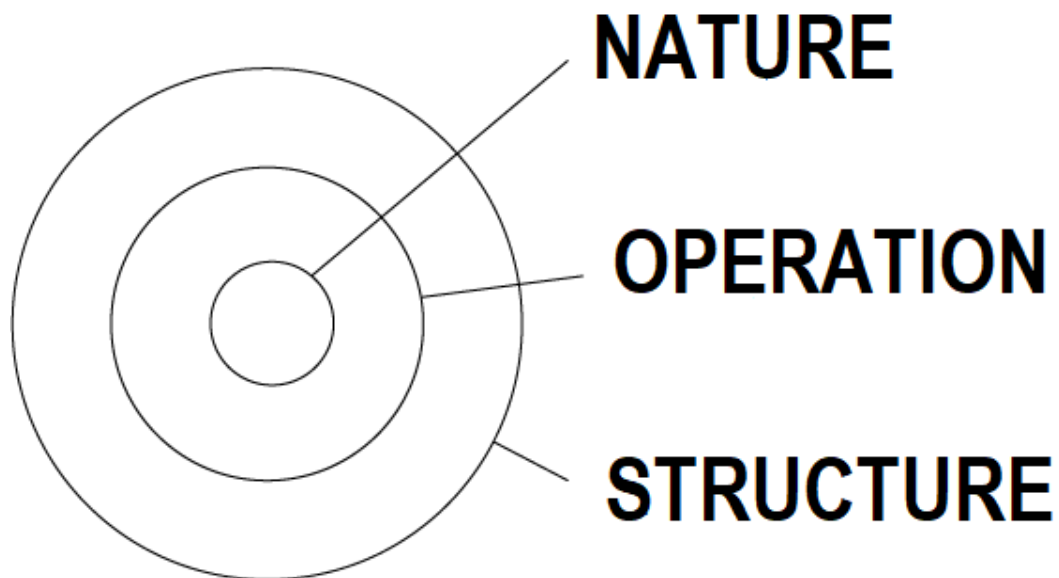

The eye:

Government structure:

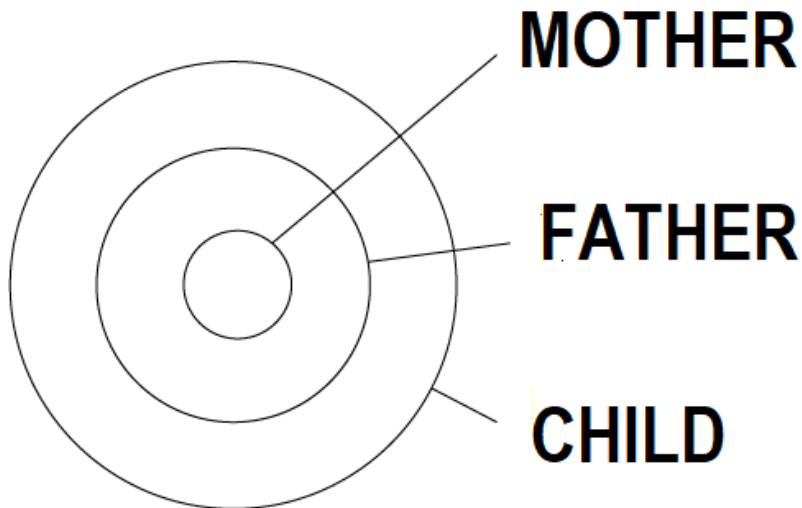

Everything:

So this is the basic universal logic, the law of creation, the program of life carried by the **MAGical** seed formula.

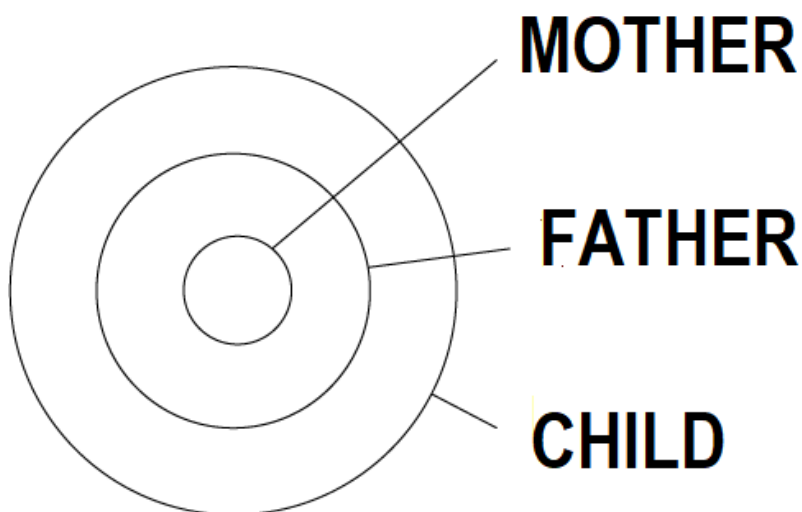

Problem & solution

God:

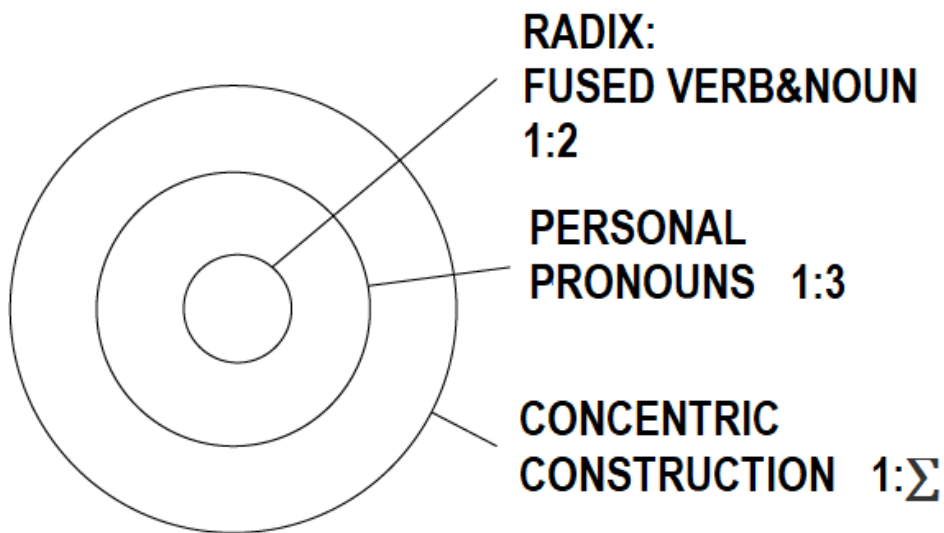

So we have WRONG religious programs...

Family:

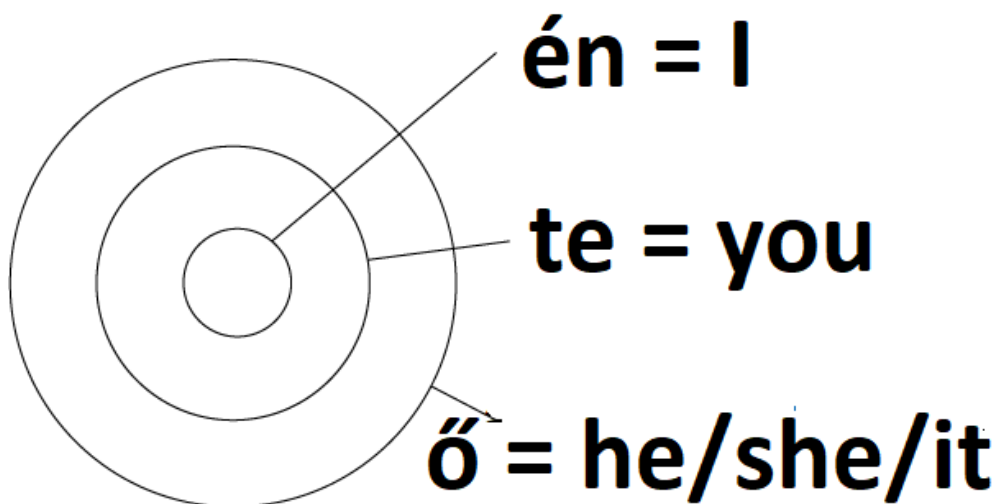

WRONG social & political programs...

Language:

WRONG mental programs...

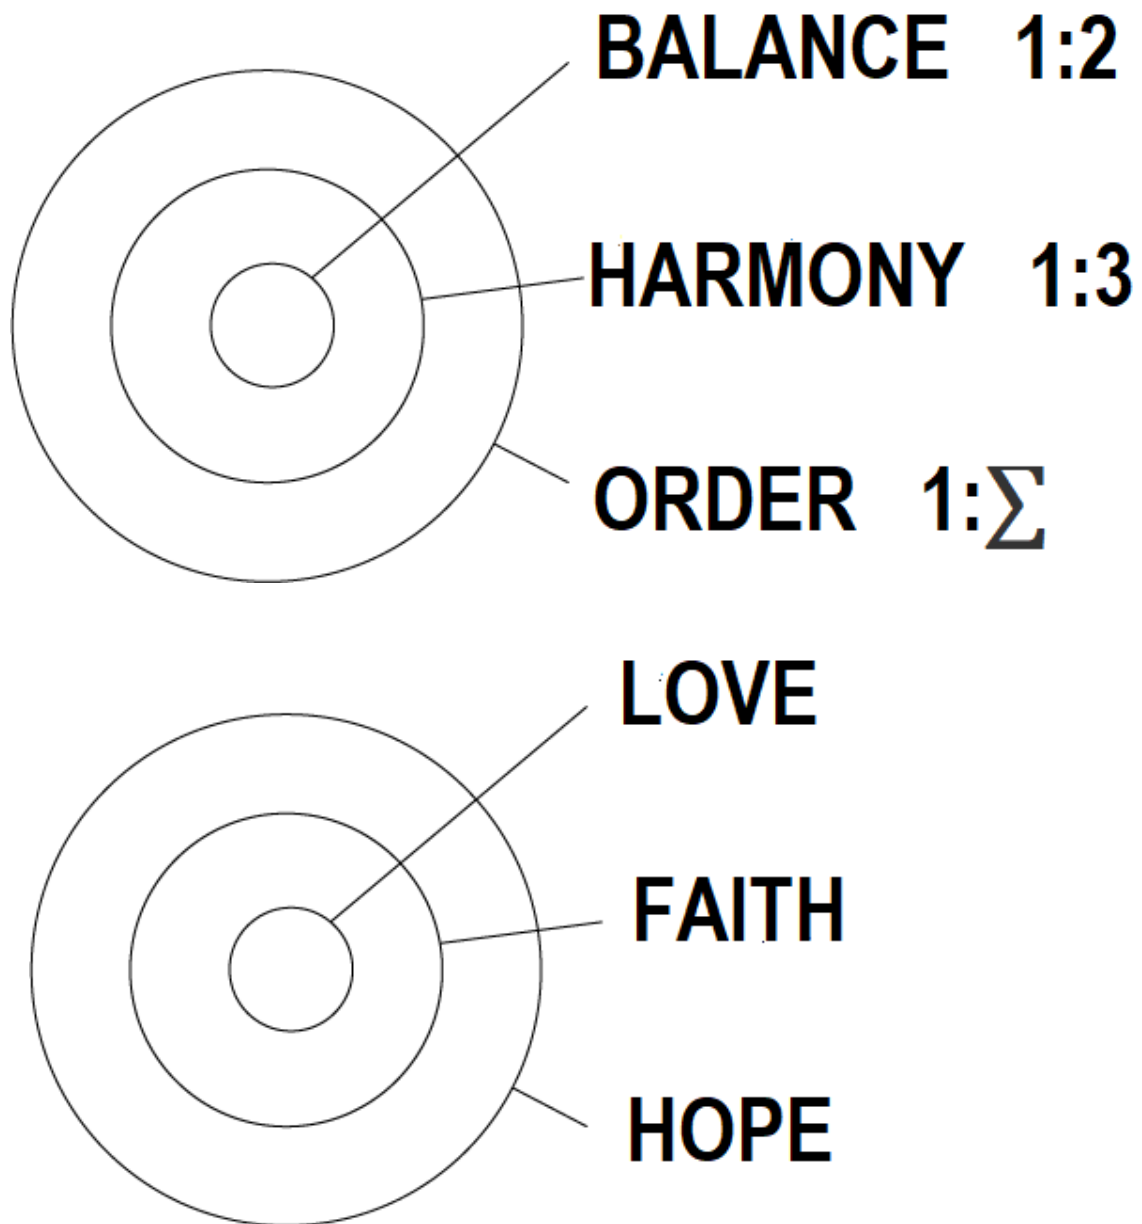

Personal pronouns:

and **WRONG** programs of perception and relation.

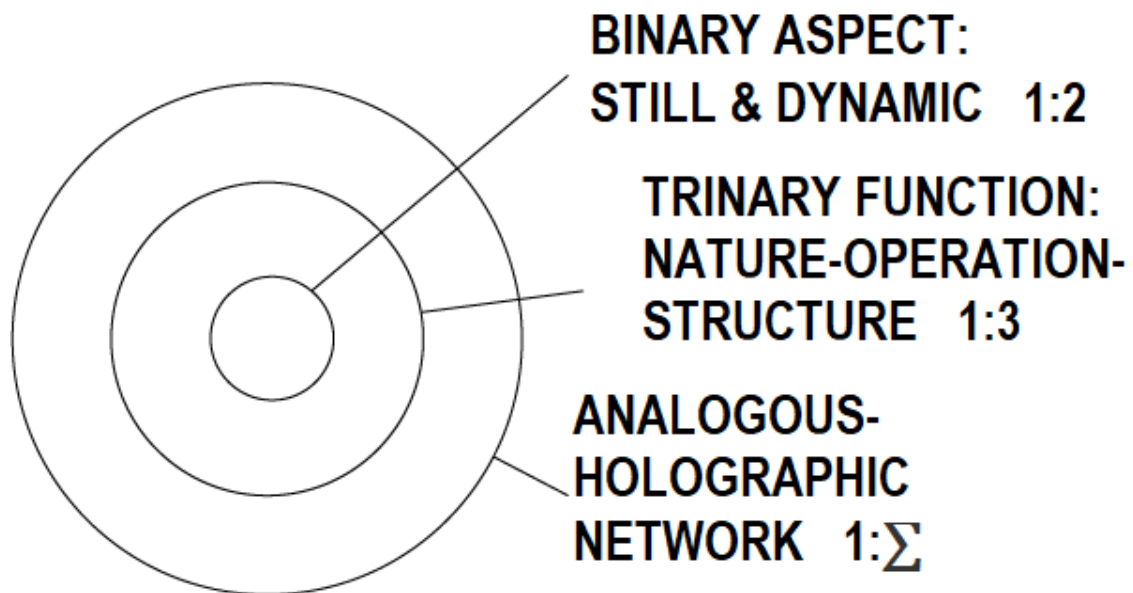

Solution: reprogram the seed pattern consciously and systematically.

The end

Present-past-future. A positive, cooperative and universally compatible humanity. Peace, healing and improvement.

MAG at first sight:

Magical substance, the metaphysical world or metanarrative essence as first observed in narrative texts (*zsuzsanna váradi-kalmár, the living books of paul bowles in: the cultic code, buda 2015*)

This is an energy vortex or rose of life which starts spinning happily as soon as our seed programs are fixed. 12petals: 3seedparts x 4elements = 12chakras, 12works, 12tribes...
